Project

➢ Create a Weather app in Android which will display Todays weather in detail. Also, it will display next 10 days' weather forecast. Use OpenWeatherMap API's to get weather information.

- **API Key/App Id** = ebfcac32bda131ed5a160f2757938396

- **API Documentation** = http://openweathermap.org/api

Feel free to create the UI as per your choice. Try to see existing applications available in market and create similar kind of simpler version.

Use following components on technical front

- UI – Material Design

- Networking – Retrofit ~ OkHttp

- JsonParsing – Google GSON
